

DIRECTOR, NATIONAL INSTITUTE OF BIOMEDICAL IMAGING AND BIOENGINEERING (NIBIB)

The National Institutes of Health (NIH) in Bethesda, Maryland, the world's premiere biomedical research institution, is seeking applications from exceptional candidates for the exciting position of Director, National Institute of Biomedical Imaging and Bioengineering (NIBIB). NIBIB's mission is to improve health by leading the development and accelerating the application of new biomedical technologies. The Institute is committed to integrating the physical sciences and engineering with the life sciences to advance basic research and medical care.

The Director provides the leadership and management oversight to a staff of approximately 100 employees who conduct and support research and development of new biomedical imaging and bioengineering technologies and techniques to fundamentally improve the detection, treatment, and prevention of disease; supporting related research in the physical, mathematical and computational sciences; and encouraging multidisciplinary technology research and development. He/she sets the research funding priorities for the NIBIB by working with the extramural research community, research advocates, the extramural program divisions and offices with grant portfolios, and the intramural research divisions, to undertake initiatives and support research that leads to the accomplishment of key scientific priorities. The NIBIB Director manages an annual budget of approximately \$357 million.

Location

Bethesda, Maryland

Qualifications

NIH seeks candidates who have a commitment to scientific excellence and the energy, enthusiasm, and innovative thinking necessary to lead a dynamic and diverse organization. Applicants must possess an M.D., Ph.D., or equivalent degree in biomedical imaging, bioengineering, or related health sciences, plus increasingly responsible senior-level research expertise and knowledge of research programs in one or more scientific areas related to biomedical imaging and/or bioengineering. Applicants should be known and respected within their profession, both nationally and internationally, as individuals of outstanding scientific competence in biomedical imaging and/or bioengineering. Candidates must have extensive experience and knowledge of federal research grants administration as well as a broad familiarity and working knowledge of biomedical imaging and bioengineering research.

Salary/Benefits

The Director, NIBIB, will be appointed at a salary commensurate with his/her qualifications and experience. Full Federal benefits will be provided, including retirement, health and life insurance, long term care insurance, leave and savings plan (401K equivalent).

Equal Opportunity Employment

Selection for this position will be based solely on merit, with no discrimination for non-merit reasons such as race, color, religion, gender, sexual orientation, national origin, political affiliation, marital status, disability, age, or membership or non-membership in an employee organization. The NIH encourages the application and nomination of qualified women, minorities, and individuals with disabilities.

Standards of Conduct/Financial Disclosure

The National Institutes of Health inspires public confidence in our science by maintaining high ethical principles. NIH employees are subject to Federal government-wide regulations and statutes, as well as agency-specific regulations described at <http://ethics.od.nih.gov/default.htm>. We encourage applicants to review this information. The position is subject to a background investigation and requires the incumbent to complete a public financial disclosure report prior to the effective date of the appointment.

Foreign Education

Applicants who have completed part or all of their education outside of the U.S. must have their foreign education evaluated by an accredited organization to ensure that the foreign education is equivalent to education received in accredited educational institutions in the United States. We will only accept the completed foreign education evaluation. For more information on foreign education verification, visit the National Association of Credential Evaluation Services (NACES) website. Verification must be received prior to the effective date of the appointment.

Reasonable Accommodation

NIH provides reasonable accommodations to applicants with disabilities. If you require reasonable accommodation during any part of the application and hiring process, please notify us. The decision on granting reasonable accommodation will be made on a case-by-case basis.

How to Apply

Applicants must submit a current curriculum vitae, copy of degree, and bibliography. In addition, applicants are asked to prepare two statements: a vision statement and a statement that addresses the specific qualification requirements (please limit both statements to two pages each). Send application package to Ms. Lynnita Spears at SeniorRe@od.nih.gov by the below closing date.

DO NOT INCLUDE YOUR BIRTH DATE OR SOCIAL SECURITY NUMBER ON APPLICATION MATERIALS.

**APPLICATIONS MUST BE RECEIVED BY 11:59 P.M. EST
ON THURSDAY, FEBRUARY 22, 2018**
