

Eli Lilly & Company

Biology and Chemistry Leadership and Scientist Positions at Lilly Research Laboratories New China Diabetes Research Center in Shanghai

Lilly is investing aggressively in diabetes research and development and an established diabetes franchise with the strategy to commercialize first-in-class and best-in-class treatments to address unmet medical needs. As an integral part of our R&D investment, Lilly plans to open a research center in Shanghai, China, in 2011. The new center will focus primarily on discovering new medicines to treat diabetes. It will employ approximately 100 scientists, expanding the discovery research efforts of Lilly Research Laboratories. Research performed at the new center will include a focus on unique features of diabetes pathophysiology in Asian patient populations; novel mechanisms of action will be pursued leading to breakthrough therapies for diabetes with the aim of improving the health of patients in China and globally.

We have openings in biology and chemistry at the levels of department/group leader and lab head for highly qualified and established scientists striving for career advancement in Shanghai, China. For all positions, job title and compensation will be based on qualification of individual candidates.

Requirements:

- Ph.D. degree and/or MD degree with postdoctoral research experience in relevant fields
- At least 5-10 years of experience in drug discovery/development with a strong track record of innovation and accomplishments (novel target ID, assay development, lead/candidate/FHD milestones, and assessment of external opportunities) in the areas of diabetes and cardiometabolic disease research
- Proven ability to develop and lead a diverse team of scientists, with a minimum of 5 years of supervisory experience
- Demonstrated ability to lead cross-functional and cross cultural teams and/or projects
- Excellent interpersonal skills reflecting leadership and the ability to create a work climate that values diversity and inspires teamwork

For application, please send resume and cover letter to YANG_HUI_HY@LILLY.COM
